

Giulia Villa

MSc student, Human-Centred Artificial Intelligence, DTU

Kgs. Lyngby · +45 31 89 11 48 · giulyvilla@gmail.com · linkedin.com/in/giulia-villa2203 · github.com/giuliavillaa · giuliavillaa.github.io

Student assistant, Copenhagen area · 15 to 20 h/week · available now · EU citizen, no work permit needed

PROFILE

I build machine learning systems and make their output readable by the people who act on it. My BSc paired the technical core with cognitive psychology and AI ethics; my MSc at DTU adds interpretability and human-AI interaction. I moved to Denmark to study and intend to build my career here.

EDUCATION

MSc, Human-Centred Artificial Intelligence Sep 2026 / Jun 2028 expected
Technical University of Denmark. Specialisation in Machine Learning at Scale.

MSc coursework, Artificial Intelligence and Systems Dec 2025 / Aug 2026
University of Trento, credits recognised by DTU. Computer vision, image processing, AI law and ethics.

BSc, Artificial Intelligence, 106/110 Oct 2022 / Dec 2025
Universities of Pavia, Milano-Bicocca and Milan. Thesis on deterministic diffusion models for image restoration.

SELECTED PROJECTS

DSV shipping exception agent individual project
Scores shipping exception severity on SLA risk, customer tier, cargo value and hours to impact, then drafts ranked options with cost and time trade-offs. Nothing that commits a cost runs without human approval. Fleet (LangChain), MCP, Slack

Cold diffusion for image restoration bachelor thesis
Reimplemented the Cold Diffusion framework on CelebA-HQ, inverting deterministic degradation without stochastic noise. PSNR 38.0 and SSIM 0.99 on desaturation, above both classical baselines. PyTorch, U-Net · github.com/giuliavillaa/cold-diffusion-restoration

BetWise, explainable gambling-risk classification team of three
Four-level risk classifier, nested cross-validation over 60 configurations, F1 0.93. SHAP for per-prediction explanation and a fairness audit across age and gender. XGBoost, SHAP · github.com/giuliavillaa/betwise-gambling-risk

EXPERIENCE

Private tutor, Python and C++ 2024 / 2026, Milan
Taught programming to high-school and university students starting from zero.

Event host 2025 / 2026, Milan
Savoir Events and Rial Events. Guests, registration desk and on-site support at corporate events.

SKILLS

Programming Python (advanced), C++, SQL, R, MATLAB, HTML

Machine learning PyTorch, TensorFlow, scikit-learn, XGBoost, computer vision, diffusion models, NLP, SHAP

Analytics and tools Power BI, SQL Server Management Studio, pandas, NumPy, OpenCV, Git, Figma

Languages Italian native, English C1 with IELTS 7.0, Danish beginner, German and French A2
